

# Timothy Reznichenko

## Senior Frontend Engineer / Senior Full Stack Engineer

Experienced engineer with 7+ years of Typescript/Javascript Full Stack expertise and 3 years as a Team Lead. Spearheaded a team of more than 20 engineers, collaborating with business partners to launch the largest Italian ad platform. Delivered projects for clients, such as FIAT, Mastercard, and Netflix.

## Experience

### Co-Founder & Lead Hands-on

Lambda Bird sp. z o.o. - Web Development Agency

Feb 2020 – Present | Warsaw, Poland | 3 years

- Collaborated with clients to identify their needs, designed custom solutions, executed projects within scope and budget, resulting in a 95% satisfaction.
- Utilized expertise of React, Node.js, GraphQL and Solidity to develop MVPs for clients, resulting in successful fundraising of over \$100k for them.
- Developed dashboards and bots for on-chain analytics and MEV, using Dune, Graph Protocol and DefiLlama.

### Volunteer Software Engineer

IT Army of Ukraine

24 Feb 2022 – Mar 2023 | Remote (Ukraine) | 1 year

### Software Engineering Team Lead

Mint.ai - the largest Italian Ad Automation platform, has raised €50 million

Feb 2019 – Feb 2022 | Remote (Milan, Italy) | 3 years

- Spearheaded a remote team of 20+ full stack engineers, set team goals, hosted 1-1's and conducted more than 100 technical interviews.
- Led requirements analysis, design, dev and test management. Cut release prep time by 80% via optimised code reviews and tech debt reduction.
- Implemented a microfrontend architecture, exceeding performance goals by 50% and productivity by 30% for 50+ cross-functional team members.
- Launched 4 new applications that earned a combined €3M in revenue.

### Founder & Lead Full Stack Developer

Local Relayer (prev. Instex) — Open-source Decentralized Exchange

Feb 2018 – Jan 2019 | Kyiv, Ukraine | 1 year

- Led a team of 3 engineers in developing a Node.js API, that supported 1000+ concurrent trades, resulting in a 75% increase in trade volumes.
- Mentored junior engineers in best practices for code quality, git, and testing, resulting in a 30% decrease in bugs and a 40% increase in test coverage.
- Implemented scalable and fault-tolerant AWS infrastructure, resulting in a 70% reduction in infrastructure costs and a 20% increase in uptime.

### Front End Javascript Engineer

BitFit — Asset management system used by Netflix and Hulu

Oct 2016 – Jan 2018 | Remote (San Francisco, USA) | 1 year 4 months

- Rewrote the platform from Backbone to React & TS resulting in a 60% increase in page loading speed and a 30% increase in user engagement.
- Engineered real-time customizable dashboards with d3.js and WebSocket.
- Coded an offline React Native app that increased props issuance by 40%.

### Junior Front End Engineer

ST manage - Web Entertainment Studio (out of business)

Sep 2015 – Oct 2016 | Kyiv, Ukraine | 1 year 2 months

- Developed web apps and HTML5 games with custom React UI Kit.
